

DEAR VICE PRESIDENT GORE:

MAR 30 1994

I urge you to show your leadership and commitment to salmon recovery by supporting removal of the four Lower Snake River dams.

~~My income depends, at least in part, on salmon harvests, and my livelihood is being devastated by these dams.~~
Salmon are a vital part of our economy, our legacy to our kids and our way of life. The four Lower Snake River dams are driving salmon toward extinction and threatening fishing communities throughout the Northwest and into Alaska.

Those dams just don't make sense—they cost more to keep than they are worth. I want to see a future that includes a healthy economy, healthy communities and healthy salmon fisheries. Only partial removal of the four Lower Snake River dams will work to get us there.

Please include this postcard in the official public comment record for the "All-H" paper and the Corps DEIS.
